## PROFESSIONAL SUMMARY

Passionate and creative Full Stack Web Developer with expertise in building dynamic, user-friendly websites and applications. Completed numerous real-life web projects, demonstrating strong technical proficiency and practical experience. Recently graduated with a strong academic record, earning three VC awards for excellence. Successfully completed an internship, achieving the top score for outstanding performance. Additionally, possess research experience in machine learning, contributing to innovative solutions in the field. Strong problem-solving skills, a keen eye for detail, and a commitment to continuous learning.

## SKILLS

- **Web Development:** JavaScript, React, Next JS, MongoDB, Node js, Express js, PHP, MySQL, HTML, CSS, Bootstrap, WordPress, Python
- **Software & Tools:** Photoshop, Adobe XD, MS Word, PowerPoint, Canva, Figma, AutoCAD, GitHub
- **Other:** Computer Networking, Software Engineering, Operating Systems, Data Mining, Data Structures & Algorithms, OOP

## WORK EXPERIENCE

**Web Developer - Intern** | NextTech Limited, Mirpur-10 (Oct, 2024 – Jan, 2025)

Enhanced a cryptocurrency website with end-to-end functionality, real-time data integration, and database management. Technologies used: HTML, CSS, JavaScript, Bootstrap, PHP, MySQL

**Academic Research** | Green University of Bangladesh (Apr, 2024 – Jan, 2025)

Conducted machine learning-based research on shipping container code detection and recognition, enhancing image quality to improve recognition accuracy and overall system performance. Used: YOLO, ESRGAN, OCR, etc.

**Freelancer** | Online Marketplace (Jan 2021 – Present)

Worked as a freelancer on multiple online marketplaces, successfully completing numerous real-life web projects for clients across various industries. Delivered high-quality, dynamic, and user-friendly websites with a focus on performance, responsiveness, and functionality.

## PROJECTS

- **Portfolio** - <https://junaetpro.github.io/portfolio/>
- **Education Website with E-commerce:** Built a responsive platform with online courses, quizzes, product purchasing, an admin panel, and database integration. Using: HTML, CSS, JS, Bootstrap, PHP, MySQL
- **Crypto Service Website:** Create a real-time cryptocurrency platform with an admin dashboard for data management. Technologies: HTML, CSS, JavaScript, Bootstrap, PHP, MySQL
- **Secure Messaging Website:** Created a cybersecurity platform for text encryption and decryption using a custom cipher algorithm. Technologies: HTML, CSS, Bootstrap, JavaScript
- **Smart House Project:** (AutoCAD for Design, Cisco Packet Tracer for Network Connection)

Additionally, I have developed: 10+ WordPress projects | 5+ React projects | 20+ CSS & JS projects
